

Installation Manual Double DIN Kit

piano-black:

381210-17-1

8. Mount mounting brackets with flat headed screws to Double-DIN head unit

We recommend to leave about 24 mm space to the unit front surface

9. Connect all required circuit points. Place Double-DIN head unit on dash board
Fix it with 4 screws

10. Put clips on the rear side of fascia plate. Place fascia plate on dash board

Reinstall everything in reverse order to finish installation

• Nissan Qashqai (J11) 02/2014->

Compatible with these double DIN devices
