

Place the chromed strips according to your taste.

Caution:

Handle with care, and avoid to touch the adhesive part of the chromed strips.

Note:

The chromed strips have different lengths.

Please make sure to note this before placing the chromed strips on the fascia plate.

INSTALLATION MANUAL

1

1 Remove the plug over the original radio and save the screws.

5

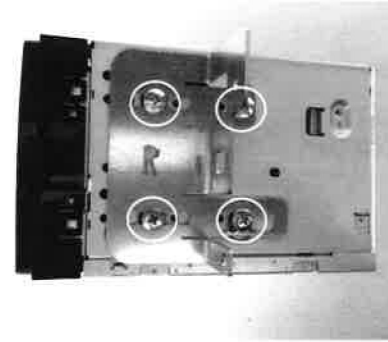

5 Remove the original radio from its position by unscrewing the screws.

2

2 Remove the original fascia plate.

6

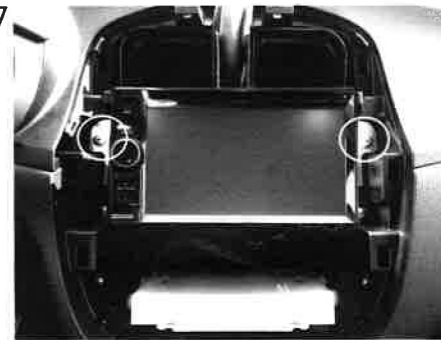

6 Mount the brackets included in the kit on the aftermarket head-unit.

3

3 Remove all the components from the original fascia plate as shown in the picture:
 - air vents
 - hazard lights button
 - doors lock button
 - climate control display

7

7 Place and fix with the supplied screws the aftermarket head-unit to the dashboard.

4

4 Fix, with the save screws, all of the components previously indicated to the fascia plate supplied in the kit.

8

8 Connect all the cables, check the correct operation and fix the fascia plate. In the picture it is shown the final result.
