General advice

While developing this product, your personal safety combined with the best operating service, modern design and an up-to-date production technique was especially taken into account.

Unfortunately, despite the utmost care injuries and/or damages might occur due to improper installation and/or use.

Please read the attached instruction manual completely with great care and keep it!

All articles of our production line pass through a 100 % check - for your safety and security.

We reserve the right to carry out technical changes which serve the improvement at any time.

According to each article and purpose, it is sometimes necessary to check each country's legal regulations before installing and starting the unit.

In case of guarantee claims, the device has to be sent back to the seller in the original packaging with the attached bill of purchase and detailed defect's description. Please pay attention to the manufacturer's return

requirements (RMA). The legal warranty directions are valid.

The guarantee claim as well as the operating permission becomes invalid due to:

- a) unauthorized changes to the device or accessories which have not been approved or carried out by the manufacturer or its partners*
- b) opening the device's frame*
- c) device's repairs carried out by one's own*
- d) improper use / operation*
- e) brute force to the device (drop, wilful damage, accident etc.)*

During installation, please pay attention to all safety relevant and legal directions. The device has only to be installed by trained personnel or similarly qualified people.

Please limit on installation or function problems the troubleshooting to 0.5 hours for mechanical and 1.0 hours for electronic works.

To avoid unnecessary work and to save costs, please send us immediately via the contact form Kufatec (<http://www.kufatec.de/shop/de/infocenter/>) a request to our technical support.

Please quote the following necessarily:

- Vehicle Identification Number
- Part number of the retrofit kit
- Detailed description of problems
- Already conducted operations

Safety Instructions

Installation requires special knowledge.

Do not install the unit yourself. For safe and reliable installation, consult a dealer having special knowledge.

- *Never use bolts or nuts from the car's safety devices for installation. If bolts or nuts from the steering wheel, brakes or other safety devices are used for installation of the unit, it may cause an accident.*

Notes

Note: Please keep in mind that in some countries it's forbidden by law to watch TV while driving.

Scope of delivery 40565

- Specific modul
- Cable set

Installation instruction

Push the locks with a suitable tool on the right **and** left side of the armrest. There is a clear audible „click“ when the locks open. This has to be done with extreme caution, because the locks will break very easily! For the exact position of the locks, pls. refer to Fig. 1.

Fig. 1

Open up the armrest and remove the marked screws, Fig. 2.

Fig. 2

Unfasten the control panel. Lift it up (at the armrest, Fig. 2) and pull it out of the center console, Fig. 3. Place the control panel to the left. Remove the screws above the main unit on the left and right.

Fig. 3

The main unit can now be removed. Open the locking of the quadlock-connector, Fig. 4, and disconnect it.

Fig. 4

Insert the delivered cable set (Fig. 5) between the quadlock-connector and the main unit. The remaining plug will be connected to the modul.

Fig. 5

Mount the module inside the center console behind the main unit, using suitable fixing material.

The re-assembly takes place appropriately in a backwards sequence.

Application notes

The VIM activation/deactivation is done via the multifunctional steering wheel. Therefore press the Mute-button (Fig. 6) for approx. 8 seconds.
